The solution is to use the "keygen.exe" file (the one that comes with the installation cd). This file is found in the "Documents and Settings\[user name]\Appdata\Local\Autodesk\AutoCAD\2013\keygen.exe". Then you will need to extract the "KeyCreationData.xml" from the "keygen.exe" file. After this you will need to "Edit the file" and change the code "", the "SystemUser" to "user1" or "user2". That's it.
