Prusa Software Add an image or two to your Prusa printer with our product Prusa Printer 2D Design software and take advantage of the 60 mm nozzle and tiny print size that we started with the Mendel Max 3D printer. You can work in stereolithography (.stl), slice up 3D models or use our turntable and enable 3D printing. Prusa Software Prusa Interface software makes using a Prusa printer even easier! Log in to your printer, go to Prusa Interface and either start new prints or choose from all the prints you have previously created with the Mendel, Mendel Max or Mendel Max 2. Watch your printer in real time with the LCD display, control the speed, confirm the printing progress and check the status of all your prints. Use the cursor to browse through all your prints. You can watch how they are developed and even how they look at any given point. Prusa Software Smoothness and safety of filament is very important. We offer you a solution to manage your filament and place it in the printer. You can add your filament in printer, set the rotation speed for printing and plan to print until the printer is empty. You can also display your prints in real time and see how they develop. Prusa Interface software is designed for a printer with the Mendel Max or Mendel Max 2 printer. Mendel Max 3D printer features: Mendel Max 3D printer works with any filament: One material is enough! Just print your model over and over again! 60mm nozzle! Tiny Print Size!
