What's New In?

SpectraByte's Anti-Executable Security is a free and easy to use Anti-Executable security and task manager. This application scans and removes all executables and task manager processes that were not supposed to be running. This can be a real time-saver. SpectraByte's Anti-Executable Security also helps you block unwanted programs and internet activities from happening. The program will also remove any left-overs from previous scans. SpectraByte's Anti-Executable Security could prove useful if you need to configure a computer that is not under your control. For example, when you are moving out of your parent's house or school and need to wipe your computer. SpectraByte's Anti-Executable Security's lack of features could be seen as a

disadvantage, but you can use it as an easy way to get rid of unwanted applications on your computer. The program is easy to use and even allows users to blacklist programs and games based on the title or process name.
