What's new:

Seasons 1-2 Minecraft: Story Mode For those of you who don't know how to play Minecraft, it's a sandbox indie video game. I know, right? You may have seen those Conan Exiles or Albion videos a while ago that showed you what it was about. At the same time, you also know those Game Theory episodes where probably most of you have seen it. Again, if you didn't know what it was about, you'd be confused as heck so let's take a look. Okay, normally, I'd avoid saying anything about this game but I really cannot explain it in one words. Maybe, you can relate to it. You have to limit their growth and their distribution so that you can do stuff, and you have to do stuff, too. You can also limit what your villagers can produce. Okay, you can impose a limit per day per villager, or even a limit per hour per villager. You can limit what they produce, but you can also limit them, too. And no, you can't do that. You can add them on a day of a year or, even, on a monthly basis. You can have a maximum of 10 people in your tribe and you can assign them different tasks. The number of players is not fixed. You can have six people collecting ore, two workers for your trade company, another two for providing you with food, perhaps another four people for guards so that you can defend your territory. But there's one guy that decided to teach me all this. We will try to build five creative players: So
