Mutagenic and cytotoxic activities of anti-breast cancer drugs, in particular, tamoxifen, TNP-470, adriamycin and ADM-HCL have been investigated using various test systems. Most of these anti-breast cancer drugs had definite mutagenic and cytotoxic effects. The mutagenic and cytotoxic activities of these drugs appear to be associated with their anticancer effect. In many cases, the inhibitory activities of carcinogenesis on the mutants induced by the drugs were higher than the inhibitory activities of the carcinogenesis on tumor cells. Furthermore, tamoxifen had greater effects against mammary tumor cells than on spontaneous mammary tumors. The target of tamoxifen was possibly mammary cell.Q: PHP - Adding additional parameters to a html form I have a HTML form with four inputs. All of these inputs are posting to a php page. Now I would like to add a fifth parameter to one of these inputs. I understand that I can add the fifth parameter to the url when the page loads. But how can I make this happen. I know this should be a simple fix. But I seem to be out of ideas. A: You can access the \$_REQUEST in php. //check for the POST request from your webpage if (isset(\$_POST['additional_param'])) { //additional_param was submitted from your webpage } When the data is submitted from your webpage, the following will be added to the above code: \$_POST['additional_param'] = 'a_new_param'; For more information, please consult the manual. Q: changing permissions for other users on windows xp I am trying to give my daughter permission to run an executable file on our system.
