KEYMACRO is a small, free utility for Windows to enable you to quickly create keyboard shortcuts from key combinations. With it you can set key macros to perform different actions such as pressing a mouse button or dragging the window. The program displays the key sequence in the

form of a list with a list of defined commands, and allows you to execute them. It is small and includes only three icons: a transparent system tray icon, a small, trayless window and a small application icon. SysUi Panel features a new intuitive interface, inspired by Windows 7 and designed to save your time as a power user by giving you the most efficient and dynamic way of managing Windows. SysUi Panel is the only user interface for

Windows that is actively developed in collaboration with the Microsoft Team responsible for Windows 8 and Windows. The new interface for SysUi Panel is based on Windows 7 and so the features of the application are streamlined to ensure that you enjoy the optimal experience of using this application on your Windows 7 system. DiScorPilot is a quick and smart disk defragmenter for Windows which can defragment your hard

disk using the 7-Zip compression algorithm. It detects whether the disk needs defragmentation by calculating the last time of disk defragmentation, which is determined by the changes of the last accessed file time.

Taskbar Tweaker is a graphical tool that helps you to modify any aspect of Windows 7's taskbar including its color, its size, and even its location. It's also the only tool of its kind that allows you to choose between minimizing the

taskbar, setting it to its own icon, auto-hide, maximize or full screen. Great Wallpaper Manager is the ultimate solution for managing your wallpapers in Windows 7. This application will help you select and save your wallpapers, arrange them in the correct folders and even resize them with ease. You can have over 3000+ wallpapers from Microsoft and third party sources in this app. Xmleditor is a tiny program with just one

purpose: to help you create beautiful XMLE documents easily. It provides you with the many features of XMLE-based templates that you're used to in other applications, and much more besides. Q: For a linear function  $f$ , the set of numbers  $z$  such that  $|f(z)| = 3$  Question: Let  $f: \mathbb{C}$

$\rightarrow$

$\mathbb{C}$  be linear and not identically 0.

Let  $S = \{z \in \mathbb{C} \mid |f(z)| = 3\}$

Show that  $S =$

$\{0, \frac{1}{2}, -\frac{1}{2}\}$  or

$S = \{0\}$

I know that  $f(0) = a$  and  $f$  is

continuous in 0 but

that is all I know how to

start. A: As long as  $f$  is

not identically zero, it is

continuous at any point

where it is not the zero

function. So there is an

$\delta$
