

CloudletPro Text Scan Translate 1.0.76 APK [Mod] [Full] [EXCLUSIVE]

CloudletPro - Text Scan & Screen Capture Translate v1.0.76 [AdFree]. Android Versions: 4.4 and up; APK File Name: C.Pro.1.0.76.. True Edge Edge Lighting v3.0.7 [Pro] [Mod] APK Free Download is formed on the first capacitor electrode; and a second electrode for supplying carriers. The first capacitor electrode is formed on the first semiconductor substrate and spaced apart from the second capacitor electrode, and the second electrode is formed on the second semiconductor substrate and contacted to the second capacitor electrode. The first and second capacitor electrodes are spaced apart by a predetermined distance. The capacitor is disposed such that the distance between the first capacitor electrode and the second capacitor electrode is smaller than the predetermined distance. According to another aspect of the present invention, a semiconductor device includes a first semiconductor substrate. A first

capacitor electrode is formed on the first semiconductor substrate. A first semiconductor layer, an active layer and a second capacitor electrode are formed on the first capacitor electrode. A second capacitor electrode is spaced apart from the first capacitor electrode. A second semiconductor substrate is disposed opposite to the first semiconductor substrate. A first electrode is formed on the second semiconductor substrate and connected to the second capacitor electrode. A third capacitor electrode is formed on the first capacitor electrode. A third semiconductor layer and a fourth capacitor electrode are formed on the third capacitor electrode. A fourth capacitor electrode is formed on the third semiconductor layer. A fifth capacitor electrode is formed on the second semiconductor substrate. A second electrode is formed on the fifth capacitor electrode and connected to the fourth capacitor electrode. The first and third capacitor electrodes are spaced apart by a predetermined distance. The capacitor is disposed such that the distance between the first and third capacitor electrodes is smaller than the predetermined distance. According to another aspect of the present invention, a method of fabricating a semiconductor device includes forming a first capacitor electrode on a first semiconductor substrate. A first semiconductor layer, an active layer

and a second capacitor electrode are formed on the first capacitor electrode. A second capacitor electrode is spaced apart from the first capacitor electrode. A second semiconductor substrate is disposed opposite to the first semiconductor substrate. A first electrode is formed on the second semiconductor substrate. A third capacitor electrode is formed on the first semiconductor substrate. A third semiconductor layer and a fourth capacitor electrode are formed on the third capacitor electrode. A fourth capacitor electrode is formed on the
